Cruising Technician

1. The position of cruising technician at FBIB Field Bureaus has been reclassified to CAF-9, with alternate junior positions at CAF-7 and CAF-5. It is desired to fill these positions as rapidly as possible with competent men who are not assigned routine operational duties in order to develop fully and carry on consistently the transmitter and program research necessary to the maintenance of complete monitoring coverage.

2. It is the opinion of this office that [redacted] and [redacted] Medewar, respectively, should fill these positions at Reseda and on Kauai and should be relieved of routine operational duties in order to devote full time to cruising. Your recommendation in this regard is requested, however, or alternatively your request for recruitment to fill the position.
